

Interim Report

January–September 2019

**“Continuation of good growth in sales
and EBITA in Q3”**

Mårten Andersson, CEO

This interim report has been prepared in Swedish and translated into English. In the event of any discrepancies between the Swedish original and the translation, the Swedish shall have precedence.

Interim Report January–September 2019

Q3 July–September 2019

- Net sales increased by 16 percent to SEK 1,711 (1,470) million
- EBITDA increased to SEK 253 (152) million
- EBITA increased to SEK 153 (123) million
- Organic EBITA growth was 4 percent
- Impairment of intangible assets of SEK 328 million in the Consumer business area
- Profit after tax amounted to SEK -225 (74) million. Adjusted profit after tax, excluding impairment of intangible assets of SEK 324 million after tax, was SEK 99 million
- Earnings per ordinary share was SEK -2.00 (0.72). Adjusted earnings per ordinary share, excluding impairment of intangible assets of SEK 328 million, was SEK 1.01

Period January–September 2019

- Net sales increased by 18 percent to SEK 5,032 (4,252) million
- EBITDA increased to SEK 618 (343) million
- EBITA increased to SEK 319 (259) million
- Organic EBITA growth was 5 percent
- Impairment of intangible assets of SEK 328 million in the Consumer business area
- Profit after tax amounted to SEK -166 (153) million. Adjusted profit after tax, excluding impairment of intangible assets of SEK 324 million after tax, was SEK 159 million
- Earnings per ordinary share was SEK -1.68 (1.28). Adjusted earnings per ordinary share, excluding impairment of intangible assets of SEK 328 million, was SEK 1.31

Events after the reporting period

- Andreas Stenbäck took over as CFO of Volati AB (publ) on 1 October
- Vägghmaterial i Sverige AB was consolidated with effect from 2 October
- During October, 1 million ordinary shares held by the Company were withdrawn. In addition, shares in subsidiaries were transferred to key individuals in Volati's business units, both in accordance with the decision of the Extraordinary General Meeting on 30 September

Key figures

The introduction of IFRS 16 Leases on 1 January 2019 affects some of the key figures presented below. As the comparative figures have not been restated, we have added extra columns showing what the figures would have been prior to IFRS 16 to make the information more comparable for the reader. Further information on the definition of alternative performance measures can be found in the note information in the report.

^{*)}To provide a more comparative picture, the columns show what the figures would have been before the introduction of IFRS 16.

Net sales, SEK million

EBITA, SEK million

Continuation of good growth in sales and EBITA in Q3

Net sales increased by 16 percent to SEK 1,711 million and EBITA increased by 24 percent to SEK 153 million. Behind the figures are contributions from acquired companies and continuing good development for the existing operations. Organic EBITA growth was 4 percent. It is our assessment that the medium-term profit trend for two of Consumer's business units, NaturaMed Pharma and me&i, does not measure up to our previous expectations of improved profitability. This has unfortunately resulted in impairment of goodwill and intangible assets of SEK 328 million in Q3.

Akademibokhandeln increased sales and earnings

The Akademibokhandeln business area continued its positive trend during Q3. Both sales and earnings improved compared with the same period the previous year. The business area experienced good demand in the core range and strong development in its non-book segment during the quarter. This, together with a continued focus on costs and margins, has had a positive impact on profitability. The Bokus e-commerce channel also continued the trend from Q2, increasing its sales volume while improving margins.

Stable quarter for the Trading business area

Throughout the year, the Trading business area has been challenged by the weaker krona, as most of the companies import their products. We are very pleased with how well the business area has managed to meet the challenge by working on both costs and price adjustments. We can confirm that demand for the business area's products has remained good during the quarter.

Sales and earnings growth for the Industry business area

We are pleased with the performance of the business area, which has increased both its sales and earnings. However, the business area's operations are subject to natural fluctuations in demand, as we also deal with project sales and other operations affected by seasonality. These fluctuations in demand have had a negative impact on earnings.

Impairment of goodwill and intangible assets in the Consumer business area

In Q3, we recognised a total impairment loss of SEK 328 million on goodwill and intangible assets in two of Consumer's business units – NaturaMed Pharma and me&i. This was based on our assessment that the medium-term profit trend for the business units will be lower than our previous expectations. We continue to work closely with the business units on relevant measures. Both NaturaMed Pharma and me&i are profitable. The vehicle inspection business in the Consumer business area had a good third quarter. Besikta has handled the effects of the rule changes introduced in 2018 very efficiently. In simple terms, the rules have extended inspection intervals from 12 to

14 months, which has had an adverse effect on the customer base for the entire sector. By working on staffing, costs and pricing, the business unit is now back to profitability in line with how it was before the change, with a strong market position.

Large inflow of potential acquisitions

During the quarter, we were able to welcome Vägghmaterial AB into the Volati family. The acquisition, an add-on acquisition for Trading, broadens the business area's offering to the Swedish building materials and paint retail sector. We have seen an increased inflow of potential acquisition candidates during the quarter. We have a strong brand in the acquisition market and are a good owner of companies in a range of sectors, notably in building materials and hardware. What is more, the number of companies seeking new owners has increased in the current phase of the economic cycle. It is vital for us to strike the right balance in terms of the acquisitions we should go for and the ones we should reject. The focus is, as always, on companies' capacity for long-term earnings and value creation.

Good financial position and scope for acquisitions

As I mentioned at the start, the operations have performed well during Q3 and we continue to show a good financial position. Net debt to EBITDA ended the quarter at 2.2x, which is well within our target of net debt to EBITDA of no more than 3.0x. Due to seasonality, it is also important to remember that Q4 is normally Volati's strongest quarter for earnings and cash flow. In other words, we have good financial scope to make further acquisitions when the right opportunities arise.

Mårten Andersson, President and CEO

This is Volati

Volati acquires well-managed companies with strong cash flows at reasonable valuations, and develops them with a focus on long-term value creation. Acquiring companies that have stable and sustainable cash flows from the outset creates a stable base for operations. These cash are then used for further acquisitions. Through active long-term corporate development efforts, Volati creates favourable conditions for organic growth.

Net sales and EBITA trends 2004 – Q3 2019, SEK million

Since 2003, Volati has built an industrial group organised in four business areas: Trading, Consumer, Akademi- bokhandeln and Industry.

Trading

33%

of the Group's EBITA

Consumer

20%

of the Group's EBITA

Akademi- bokhandeln

17%

of the Group's EBITA

Industry

30%

of the Group's EBITA

The figures above refer to the twelve-month period October 2018 to September 2019 and show the business areas' share of EBITA without the effects of IFRS 16, as the business areas are monitored excluding IFRS 16. Acquired operations are included in the relevant business area from the acquisition closing date and are calculated net of central costs.

Consolidated financial trend

Net sales

The Group's net sales for Q3 2019 amounted to SEK 1,711 (1,470) million, an increase of 16 percent compared with the same period the previous year. The increase is mainly due to acquisitions completed during the previous year.

Net sales for the first nine months of 2019 improved to SEK 5,032 (4,252) million, an increase of 18 percent compared with the same period the previous year. The increase is mainly due to acquisitions completed during the previous year.

Earnings

+24%

EBITA
Q3 2019

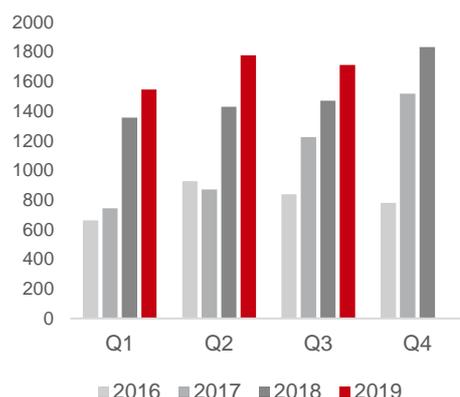

EBITDA for Q3 2019 increased to SEK 253 (152) million, mainly driven by positive earnings growth in the operations, the previous year's acquisitions and an effect of SEK 71 million from the introduction of IFRS 16 Leases. EBITA increased by 24 percent to SEK 153 (123) million in Q3. EBITA includes items affecting comparability of SEK 14 million, where a revaluation of additional consideration for S:t Eriks had a positive effect of SEK 17 million. In addition, IFRS 16 had a positive effect on EBITA of SEK 4 million. Organic EBITA growth was 4 percent.

EBITDA for the first nine months of 2019 increased to SEK 618 (343) million, mainly driven by positive earnings growth in the operations, the previous year's acquisitions and an effect of SEK 211 million from the introduction of IFRS 16 Leases. EBITA for the first nine months of 2019 amounted to SEK 319 (259) million. Organic EBITA growth during the period was 5 percent.

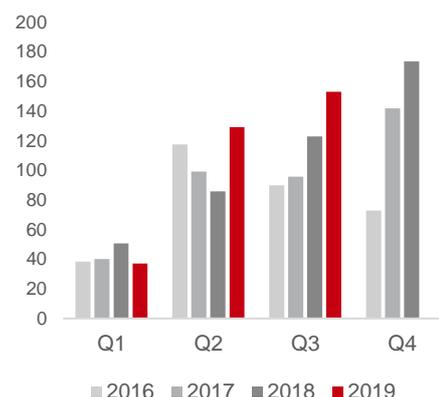

Profit after tax for Q3 2019 was SEK -225 (74) million, with IFRS 16 having a negative effect of SEK 5 million. Adjusted profit after tax, excluding significant impairment, amounted to SEK 99 million in Q3. Profit after tax attributable to owners of the Parent for Q3 amounted to SEK -143 (74) million. Profit after tax attributable to owners of the Parent, excluding impairment, was SEK 96 million. Profit after tax attributable to non-controlling interests was SEK -82 (1) million. Earnings per ordinary share after deduction of preference share dividends amounted to SEK -2.00 (0.72). Adjusted earnings per ordinary share for the quarter amounted to SEK 1.01 (0.72).

Profit after tax for the first nine months increased to SEK -166 (153) million. Adjusted profit after tax, excluding significant impairment, was SEK 159 million. IFRS 16 had a negative effect of SEK 14 million on the nine-month period and deferred tax from prior years had a negative effect of SEK 9 million, unlike the previous year which had a positive effect of SEK 20 million from a remeasurement following the tax rate reduction and a remeasurement of acquired tax losses. Profit after tax attributable to owners of the Parent for the first nine months of 2019 was SEK -86 (151) million. Profit after tax attributable to owners of the Parent, excluding impairment, was SEK 153 million. Profit after tax attributable to non-controlling interests was SEK -80 (2) million. Earnings per ordinary share, after deduction of preference share dividends, for the first nine months amounted to SEK -1.68 (1.28). Adjusted earnings per ordinary share, excluding significant impairment, for the first nine months was SEK 1.31 (1.28). Net of the year's tax remeasurements, non-recurring items and IFRS 16, adjusted earnings per share for the first nine months would have increased by 36 percent to SEK 1.41 (1.04).

Net sales, SEK million

EBITA, SEK million

Seasonal variations

Volati's operates in several different sectors and markets, which together contribute to seasonal variations in the Group. The fourth quarter generally has the strongest cash flow and earnings, and the first quarter the weakest. The season pattern is further accentuated by the acquisition of S:t Eriks, which normally reports a negative operating profit during the first quarter due to seasonal effects. Volati's cash flow and earnings are also affected by the conditions in the business areas' respective markets. This means that Volati's operations, sales and earnings development is best monitored on an LTM basis.

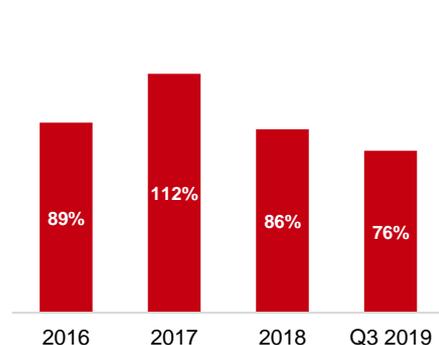

Cash flow

Cash flow from operating activities for Q3 amounted to SEK 276 (134) million. The largest difference from the previous year is related to IFRS 16. Cash flow from operating activities for the last twelve months amounted to SEK 640 (448) million. The cash conversion rate for the last twelve months was 76 (86) percent. The change in cash conversion compared with the full year 2018 is a consequence of normal seasonal variations, further accentuated by the acquisition of S:t Eriks. Investments in non-current assets for Q3 amounted to SEK 19 (14) million and were primarily related to business development investments in the form of newly established inspection stations, IT systems and ongoing investments in machinery and equipment.

Cash conversion
LTM, Q3 2019

Cash conversion, %

Equity and return on adjusted equity

Equity

The Group's equity at the end of Q3 amounted to SEK 2,233 (2,567) million. Equity attributable to holders of the Parent's ordinary shares, adjusted for preference share capital, fell from SEK 1,731 million at 31 December 2018 to SEK 1,485 million at 30 September 2019. Impairment of intangible assets has had a negative effect of SEK 239 million on equity attributable to holders of the Parent's ordinary shares, while dividends to shareholders and the repurchase of shares and warrants have reduced equity by SEK 202 million. The equity ratio at 30 September 2019 was 36 percent, compared with 46 percent at the end of 2018. The return on adjusted equity, excluding significant impairment, for the last twelve months was 13 (13) percent.

13%

Return on adjusted
equity
LTM, Q3 2019

2.2x

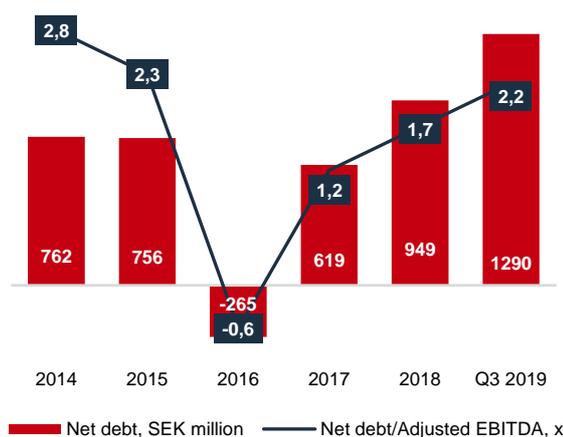

Net debt/
adjusted EBITDA
Q3 2019

Net debt

The Group had net debt of SEK 2,066 million at the end of Q3, compared with SEK 949 million at 31 December 2018. Factors that have increased net debt include the introduction of IFRS 16, share and warrant buy-backs, dividend payments, acquisitions and normal seasonality effects. Net debt excluding IFRS 16 amounted to SEK 1,290 million at 30 September 2019. The alternative performance measure Net debt/adjusted EBITDA shows the ratio without the effects of IFRS 16. For a definition see note 7 on page 27 of the report.

Total liabilities amounted to SEK 4,004 million at 30 September 2019, compared with SEK 3,005 million at 31 December 2018. The introduction of IFRS 16 was responsible for most of the increase. Interest-bearing liabilities, including pension obligations and lease liabilities, were SEK 2,240 million at the end of Q3, compared with SEK 1,217 million at 31 December 2018.

Capital structure trend

Net debt

The Group had net debt, excluding IFRS 16, of SEK 1,290 million at the end of the quarter, with a net debt/adjusted EBITDA ratio of 2.2x.

Acquisitions during and after the period

Acquisitions are a core element of Volati's strategy for creating long-term value growth, and the Company continuously evaluates both complementary acquisitions and acquisitions in new business areas. It is Volati's assessment that there is a lower risk level for add-on acquisitions and acquisitions of business units than for acquisitions in new business areas, as in-depth industrial know-how and a recipient organisation are already in place in the acquiring company and business unit.

As communicated by press release, Volati agreed on acquisition of all of the shares in Vägghmaterial i Sverige AB on 13 September 2019. Vägghmaterial has its head office in Fjärås and is an established supplier to the Swedish paint retail sector. The company develops and markets a wide range of innovative products including corner protection, putty and glass-fibre fabric. The acquisition is an add-on acquisition for the Trading business area. Vägghmaterial reported sales of SEK 66 million in 2018. The acquisition was completed and consolidated from October 2019. The acquisition is not expected to have any significant impact on Volati's earnings for 2019.

Acquisition multiples for completed acquisitions

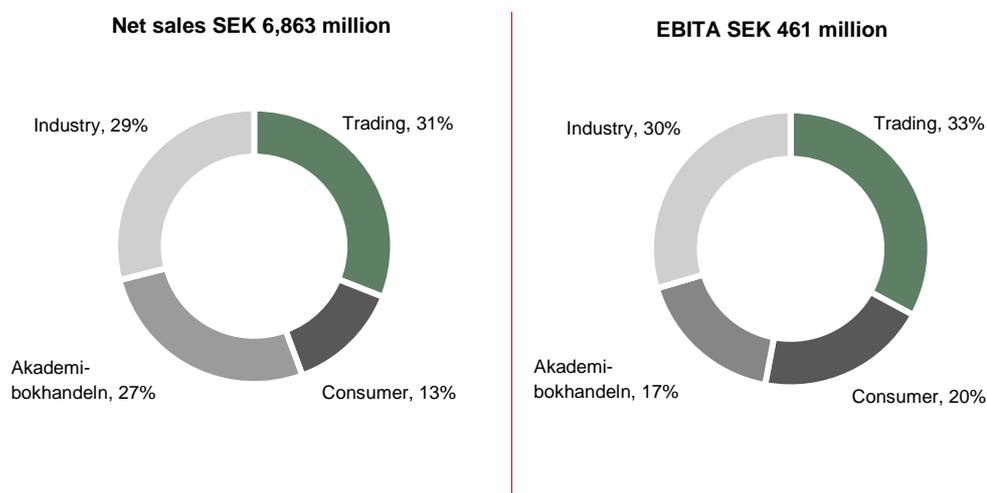

The weighted average acquisition multiple since Volati's establishment is 6.0x. (Enterprise value/EBITDA). The diagram above shows the acquisition multiples for each acquisition with an Enterprise value in excess of SEK 10 million.

Volati's business areas

Volati's net sales and earnings by business area

The diagrams refer to the twelve-month period 1 October 2018 to 30 September 2019 and show the business areas' share of EBITA without the effects of IFRS 16 as the business areas are monitored excluding IFRS 16. Acquired operations are included in the relevant business area from the acquisition closing date and their proportion is calculated net of central costs.

Trading

	Jul-Sep 2019	Jul-Sep 2018	Jan-Sep 2019	Jan-Sep 2018	LTM	Full year 2018
Net sales, SEK million	535	524	1,620	1,598	2,129	2,107
EBITDA, SEK million	53	59	148	140	184	176
EBITA, SEK million	50	54	137	126	169	158
EBITA margin, %	9	10	8	8	8	7
EBIT, SEK million	47	51	129	118	158	147
ROCE excl. goodwill, %	36	36	36	36	36	37

The Trading business area's operations are mainly concentrated on providing products in builders hardware, consumables and material for construction, home and garden, packaging, and agriculture and forestry through dealers, retail chains, e-commerce channels and directly to end customers. The business units in Trading have similar business models and customers, and are integrated through a number of functions and areas of cooperation such as logistics and IT systems, finance and other administrative functions. The part of the customer base that is common to the business units enables cross sales, cooperation between sales personnel and the opportunity to offer integrated customer solutions.

The business area continued to be challenged by the weaker krona during the third quarter, as most of the businesses import their products. The business area has been able to meet the challenge well by working on cost and price adjustments. Market conditions for the business area have remained good during the quarter.

Consumer

	Jul-Sep 2019	Jul-Sep 2018	Jan-Sep 2019	Jan-Sep 2018	LTM	Full year 2018
Net sales, SEK million	224	214	694	702	916	923
EBITDA, SEK million	41	35	107	111	133	138
EBITA, SEK million	33	27	83	86	102	104

ROCE excl. goodwill, %	264	237	264	237	264	233

1) Excluding impairment of intangible assets in Q3 2019.

The Consumer business area's operations are focused on various B2C niches and are driven by strong local entrepreneurship. All of the businesses have large customer databases, which create opportunities to collaborate, and are included in central initiatives to develop operations. Such areas include digitalisation and e-commerce as well as tools to create deeper customer relationships and increased customer loyalty.

During the annual impairment review, Volati has identified impairment of goodwill and intangible assets for the me&i and NaturaMed Pharma business units in the Consumer business area. The impairment amounts to SEK 328 million. Both business units are profitable, but the impairment reflects the assessment that profit development in the medium term will be lower than previous expectations. Volati continues to work closely with the units on relevant measures.

Other parts of the business area are progressing well. Earnings for the quarter are positive compared with the previous year, with the businesses handling the effects of regulatory changes in the vehicle inspection sector efficiently.

Akademibokhandeln

	Jul-Sep 2019	Jul-Sep 2018	Jan-Sep 2019	Jan-Sep 2018	LTM	Full year 2018
Net sales, SEK million	416	398	1,198	1,150	1,832	1,784
EBITDA, SEK million	23	19	9	-9	118	100
EBITA, SEK million	15	12	-13	-30	89	72
EBITA margin, %	4	3	-1	-3	5	4
EBIT, SEK million	9	6	-31	-47	65	48
ROCE excl. goodwill, %	114	79	114	79	114	92

The Akademibokhandeln business area is the leading bookstore chain in Sweden with a strong offering in all product and delivery formats. With stores nationwide, and online sales under the Akademibokhandeln and Bokus brands, the company operates modern and profitable sales channels focused on consumers, companies and the public sector.

The business area continued to develop positively, experiencing good demand for both its core range, books, and its non-core range. The business area's continuing focus on cost and margin improvements has had a positive impact on profitability. The Bokus e-commerce channel continued to increase its sales volume while strengthening margins.

Industry

	Jul-Sep 2019	Jul-Sep 2018	Jan-Sep 2019	Jan-Sep 2018	LTM	Full year 2018
Net sales, SEK million	536	334	1,521	804	1,988	1,271
EBITDA, SEK million	64	53	166	137	212	183
EBITA, SEK million	49	44	121	114	151	144
EBITA margin, %	9	13	8	14	8	11
EBIT, SEK million	46	43	115	112	144	140
ROCE excl. goodwill, %	26	51	26	51	26	43

The Industry business area's operations are focused on Business-to-Business niches and are driven by strong local entrepreneurship in combination with cooperation in selected areas. The units cooperate and exchange experience in areas such as acquisitions, expansion into new markets and production efficiency.

The Industry business area showed positive development, with the work on cost and price adjustments having a favourable effect on earnings. Demand for the business area's products has remained good. The figures in the table above were affected by the acquisition of S:t Eriks, which was consolidated from 1 September 2018. Consequently, only one month of the comparative period includes S:t Eriks.

Head Office

Head Office comprises the central costs in the Parent Company Volati AB and associated operations including the acquisition costs arising in the Group. EBITA for Q3, net of IFRS 16, was SEK -11 (-14) million.

Other information

Share capital

Volati has two classes of shares, ordinary shares and preference shares, which are listed on Nasdaq Stockholm under the tickers VOLO and VOLO PREF. The number of shareholders at the end of Q3 was 6,538.

On 25 April 2019, Volati repurchased 1 million ordinary shares using the mandate granted by the AGM on 16 May 2018.

The number of ordinary shares at the end of the period was 80,406,571, of which 1,000,000 were repurchased ordinary shares held in treasury. The repurchased ordinary shares held in treasury were redeemed during October. See below under events after the end of the reporting period. The number of preference shares was 1,603,774 at the end of Q3. Share capital amounted to SEK 10 million at 30 September 2019.

Nomination Committee

The Nomination Committee for the 2019 Annual General Meeting was appointed during October and the three largest shareholders are represented. The Committee consists of Carin Wahlén (chair) representing Patrik Wahlén, Karl Perlhagen representing himself and Jannis Kitsakis representing Fjärde AP-fonden.

Related-party transactions

The warrants held by a former Volati senior executive were repurchased by Volati on 30 July 2019 at their market value. In August, Volati repurchased shares in Volati's subsidiaries and redeemed shareholder loans from key personnel in Volati's business units, which affects non-controlling interests. In October, Volati sold shares in subsidiaries to key personnel in Volati's business units in accordance with the decision of the EGM on 30 September 2019. These transactions reflect a part of Volati's business model, which is to create mutual interest with key individuals within its business units or business areas by way of co-investments.

During Q2, in accordance with a resolution of the 2019 AGM, two percent of the shares in Volati Infrastruktur AB were transferred at market value to the CEO of S:t Eriks AB at a purchase price of SEK 1 million.

No other significant related-party transactions have occurred in addition to what is stated in the annual report for 2018. All related-party transactions have been conducted at market conditions.

Events after the end of the reporting period

Andreas Stenbäck took over as CFO of Volati AB (publ) on 1 October.
Väggmaterial i Sverige AB was consolidated with effect from 2 October.

In October, Volati reduced the share capital of Volati AB (publ) by withdrawing 1 million ordinary shares held by the Company. A bonus issue was implemented concurrently with the withdrawal in order to restore the share capital. After the withdrawal and bonus issue, share capital is unchanged. The number of ordinary shares in the Company has declined by 1,000,000 to 79,406,571, while the number of preference shares is unchanged at 1,603,774. In addition, shares in subsidiaries were transferred to key individuals in Volati's business units in accordance with the decision of the EGM on 30 September.

Financial targets

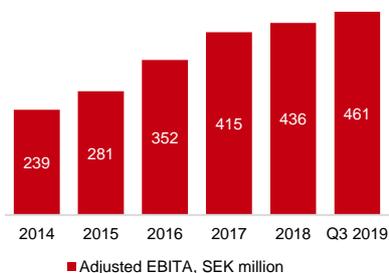

Volati's overall objective is to generate long-term value growth by building an industrial group of profitable companies with solid cash flows and capacity for continuous development. Volati has established the following financial targets, which should be evaluated as a whole.

Note that the introduction of IFRS 16 Leases has affected the calculation of the targets (definitions in note 7 in the report).

1 Earnings growth

Adjusted EBITA of SEK 700 million by the end of 2019. Average annual organic EBITA growth of 5 percent.

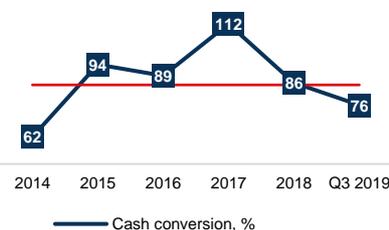

At the end of Q3, adjusted EBITA for the last twelve months was SEK 461 million. Annual organic EBITA growth has averaged 7 percent between 2013 and 2018. Organic EBITA growth varies over the years and amounted to 4 percent in Q3 2019.

2 Cash conversion

Annual cash conversion of at least 85 percent.

At the end of Q3, cash conversion for the last twelve months was 76 percent.

3 Capital structure

Long-term target: Net debt/Adjusted EBITDA ratio (LTM) of less than 3.0x.

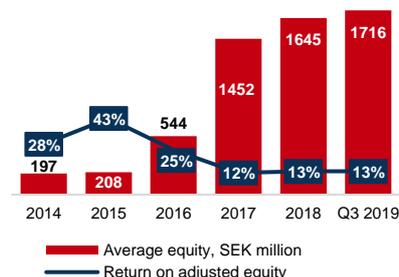

At the end of Q3, net debt/adjusted EBITDA was 2.2x.

4 Return on adjusted equity

Long-term target: Return on adjusted equity (calculated as average equity over the last four quarters) of at least 20 percent.

At the end of Q3, the return on adjusted equity, excluding significant impairment, was 13 percent.

5 Dividend policy

To distribute a dividend of 10–30 percent of net earnings attributable to the Parent Company's shareholders, after taking into consideration future acquisition potential, development potential in existing companies, the financial position and other material factors.

The dividend for 2018 amounted to SEK 1.00 per ordinary share, which corresponds to 30 percent of net profit attributable to the Parent Company's shareholders for the 2018 financial year. Dividends on preference shares are issued at an annual amount of SEK 40.00 per preference share, in quarterly payments of SEK 10.00.

Dividend 2018
SEK 1.00
 per share

Notes to consolidated financial statements

Note 1 Accounting policies

This interim report has been prepared in accordance with IAS 34 Interim Financial Reporting and the Swedish Annual Accounts Act. The accounting policies are consistent with those applied by the Group in the 2018 annual report. The Parent Company's interim report has been prepared in accordance with the Swedish Annual Accounts Act and RFR 2 Accounting for Legal Entities. Some figures in this report have been rounded, which means that certain tables do not always add up exactly. This applies where figures are stated in thousands, millions or billions. Pages 1-12 of this report are an integral part of the interim report.

New accounting policies for 2019

IFRS 16 Leases is effective from 1 January 2019 and requires assets and liabilities attributable to leases, with some exceptions, to be recognised in the balance sheet. Implementation of the new lease standard has resulted in the majority of the Group's leases being reported in the balance sheet, as a distinction between operating and finance leases is no longer made. IFRS 16 provides a choice of introduction method: the full retrospective approach, whereby all leases are remeasured from their inception date, or the modified retrospective approach, whereby historical obligations are not remeasured from their inception date but are assumed to have been entered into on 1 January 2019. Volati has chosen the modified retrospective approach, mainly applying the practical expedients concerning short-term leases and low-value leases, see also note 2.

New balance sheet presentation

With effect from 1 January 2019, we have moved the previous finance leases from the 'property, plant and equipment' line to the 'right-of-use assets' line so that they are classified in the same place as operating leases under IFRS 16.

Key assumptions

Key assumptions about the future are described in note 25 of the 2018 annual report. The introduction of IFRS 16 means that important new assumptions involving judgements have arisen. Within the Volati Group, the assessment of the extension options regarding right-of-use assets has been taken into account, have been taken into account if exercise of such options is reasonably certain. Use of the discount rate on leases also represents judgement in terms of what asset it refers to, the financial risk and length in years for the underlying market interest rate. An incorrect assessment of the above factors can result in right-of-use assets and lease liabilities being over- or undervalued.

Note 2 Transition to IFRS 16

To calculate the effect of IFRS 16, the length of the right of use has been based on the remaining lease terms, although extension options have been taken into account if exercise of such an option is reasonably certain. In addition, the calculation has been based on the leases that existed at the end of the 2018 financial year. For all contracts where the interest rate implicit in the lease could not be determined from the obligation, the discount rate used to measure of the obligation has been adjusted according to the type of leased asset it refers to, the geographical location of the asset and the estimated financial risk associated with the lessee. The discount rate used for obligations varies between 2 and 20 percent depending on these different assumptions.

The effects on assets, liabilities and equity that arose on transition on 1 January 2019 are shown below

SEK million	31 Dec 2018	Reclassification due to IFRS 16	Restatement, IFRS 16	Restated balance sheet items 1 Jan 2019

Total equity and liabilities	5,571		842	6,413

The introduction of IFRS 16 has had a positive effect of SEK 71 million on EBITDA for Q3 2019 and a positive effect of SEK 4 million on EBITA. The introduction of IFRS 16 has resulted in depreciation for the period increasing by SEK 67 million and interest expenses by SEK 11 million. Profit after tax was negatively affected by SEK 5 million in Q3 and by SEK 15 million in the first nine

months. Interest-bearing liabilities have increased by SEK 776 million at 30 September 2019 as a result of the transition to IFRS 16. Cash flow from operating activities has been positively affected by SEK 61 million during Q3, while cash flow from financing activities has been negatively affected by the corresponding amount. Volati AB's financial commitments under bank loan agreements are based on the accounting policies that existed at the inception of the loans, which is why the associated covenants are not affected by the introduction of IFRS 16. Net debt/adjusted EBITDA at 30 September 2019 was 2.2x.

Note 3 Risks and uncertainties

It is the assessment that the Group's material risks and uncertainties are unchanged from those described in detail in the 2018 Annual Report.

Note 4 Segment reporting

At the end of Q4, Volati consisted of four business areas: Trading, Industry, Akademibokhandeln and Consumer.

Net sales, SEK million	Jul-Sep 2019	Jul-Sep 2018	Jan-Sep 2019	Jan-Sep 2018	LTM	Full year 2018

Note 5 Acquisitions and divestments of companies and operations

On 13 September 2019, Volati acquired all of the shares in Vägghmaterial i Sverige AB. The acquisition was completed and consolidated from October 2019. The acquisition analysis will be presented in the year-end report.

Two deferred purchase considerations were settled during Q2: SEK 1 million related to the acquisition of S:t Eriks and SEK 5 million related to Vinninga Cementvarufabrik (an acquisition S:t Eriks made prior to its own acquisition by Volati).

Volati acquired all shares in Stenentreprenader i Hessleholm AB and Mundus Maskin AB on 11 April 2019. The acquisitions are add-on acquisitions for Volati's Industry business area and the S:t Eriks and Tornum business units. The acquisitions are consolidated with effect from April. The acquisitions are expected to have a positive effect on Volati's results for 2019 and contribute to an increase in return on equity. The impact of the acquisitions on the Volati Group's balance sheet is set out below.

Impact of acquisitions on balance sheet (SEK million)	30 Sep 2019
Intangible assets	16
Property, plant and equipment	5
Financial receivables	5
Deferred tax assets	0
Inventories	2
Trade receivables	11
Other receivables	10
Cash and cash equivalents	39
Deferred tax liabilities	-5
Warranty provisions	-1
Non-current interest-bearing liabilities	-3
Current interest-bearing liabilities	-1
Current liabilities	-18
	59
Goodwill	44
Purchase price for shares	103
Purchase price for shares	-103
Consideration settled against existing receivable	5
Cash & cash equivalents in the acquired company at the acquisition date	39
Impact on the Group's cash & cash equivalents on acquisition date	-59

Impact of acquisitions on balance sheet (SEK million)	Net sales		EBITDA		EBITA		EBIT	
	Jul-Sep	Jan-Sep	Jul-Sep	Jan-Sep	Jul-Sep	Jan-Sep	Jul-Sep	Jan-Sep
Industry	23	56	3	8	3	7	2	7
Volati Group	23	56	3	8	3	7	2	7

Impact of acquisitions on balance sheet (SEK million)	EBITDA excl. IFRS 16		EBITA excl. IFRS 16		EBIT excl. IFRS 16	
	Jul-Sep	Jan-Sep	Jul-Sep	Jan-Sep	Jul-Sep	Jan-Sep
Industry	3	8	3	7	2	7
Volati Group	3	8	3	7	2	7

Transaction costs of SEK 1 million for the acquisitions have been charged to the Group's earnings. If the acquisitions had been consolidated with effect from 1 January 2019, their contribution to the Group's income statement, excluding transaction costs, for the period January-September 2019 would have been as follows: sales SEK 81 million, EBITDA SEK 9 million, EBITA SEK 8 million and operating profit SEK 7 million. Goodwill of SEK 44 million arising from the transactions is supported by several factors, largely attributable to the acquired companies' synergies, employees and market shares.

Note 6 Financial Instruments

Financial instruments: carrying amounts and fair values by measurement category

	30 Sep 2019			31 Dec 2018		
	IFRS 9 category ¹⁾	Carrying amount	Fair value	IFRS 9 category ¹⁾	Carrying amount	Fair value
Financial assets						
Other shares and interests	2	4	4	2	5	5
Other non-current financial assets	1.2	2	2	1.2	2	2
Derivatives held for trading	2	0	0	2	0	0
Trade receivables	1	731	731	1	558	558
Cash and cash equivalents	1	175	175	1	241	241
Financial liabilities						
Bonds	4	600	615	4	893	911
Loans from credit institutions	4	701	701	4	102	102

Additional consideration	5	6	6	5	29	29
Put options	6	30	30	6	71	71
Other current liabilities	4	48	48	4	32	32

1) applicable IFRS categories

1= Financial assets at amortised cost

2= Financial assets at fair value through profit or loss

3= Financial assets at fair value through OCI

4= Financial liabilities at amortised cost

5= Financial liabilities at fair value through profit or loss

6= Financial liabilities at fair value through equity

For a description of what is included in the various items and the measurement method, see note 21 of the 2018 annual report.

Financial instruments measured at fair value

	30 Sep 2019				31 Dec 2018			
	Carrying amounts	Quoted prices Level 1	Observable inputs Level 2	Unobservable inputs Level 3	Carrying amounts	Quoted prices Level 1	Observable inputs Level 2	Unobservable inputs Level 3
Financial assets								
Other shares and interests	4	-	-	4	5	-	-	5
Derivatives	0	0	-	-	0	0	-	-
Financial liabilities								
Derivatives	-	-	-	-	0	0	-	-
Put options	30	-	-	30	71	-	-	71
Additional consideration ¹⁾	6	-	-	6	29	-	-	29

1) Additional consideration is often contingent on the financial performance of the acquired business over a specific period and is measured on the basis of management's best estimate. Discounting to present value is applied for large amounts or long durations.

Note 7 Alternative performance measures

The financial reports published by Volati include the APMs, which supplement the metrics defined or specified in the applicable rules for financial reporting, such as revenue, profit or loss and earnings per share. APMs are specified when they, in their context, provide clearer or more in-depth data than those metrics defined in the applicable rules for financial reporting. The basis for APMs is that they are used by management to assess financial performance and can thus be considered to give analysts and other stakeholders valuable information.

Volati regularly uses APMs as a complement to the key metrics that comprise generally accepted accounting policies. The APMs derive from Volati's consolidated accounts and do not comprise measures of financial performance or liquidity in accordance with IFRS and, accordingly, should not be considered as alternatives to net income, operating profit or other key metrics that are derived pursuant to IFRS or as an alternative to cash flow as a measure of consolidated liquidity. As a result of the new standard IFRS 16 Leases that came into effect on 1 January 2019, Volati has changed the definition of some of the alternative key ratios compared with previous years and also in the 2018 annual report, see the definition below.

Alternative performance measures

The following table sets out definitions for Volati's key figures. The calculation of APMs is presented separately below.

Non-IFRS APMs and key metrics	Description	Reason for use
Organic net sales growth^{*)}	Calculated as net sales for the period, adjusted for total acquired and divested net sales and currency effects, compared with net sales for the same period the previous year, as if the relevant business unit had been owned for the same length of time in the comparative period as the length of time it has been legally consolidated in the current period.	This metric is used by management to monitor the underlying, non-acquired and non-currency-affected, net sales growth in existing operations.
Adjusted net sales	Calculated as net sales for the last 12 months at the reporting date for the companies included in the Group at the reporting date, as if they had been owned for the last 12 months.	Together with adjusted EBITA, adjusted net sales and adjusted EBITDA provide management and investors with a view of the size of the operations included in the Group at the reporting date.
EBITDA	Earnings before interest, taxes, depreciation and amortisation.	EBITDA is used together with EBITA to clarify earnings before the effects of depreciation and amortisation, and earnings before amortisation of acquisition-related intangible assets, in order to provide a view of the profit generated by operating activities.
Adjusted EBITDA^{*)}	Calculated as EBITDA, excl. IFRS 16 adjustments, for the last 12 months for the companies included in the Group at the reporting date, as if they had been owned for the last 12 months, and adjusted for transaction-related costs, restructuring costs, remeasurement of additional consideration, capital gains/losses on the sale of operations and other income and expenses considered to be non-recurring.	Together with adjusted net sales and adjusted EBITA, adjusted EBITDA provides management and investors with a view of the size of the operations included in the Group at the reporting date, as it does not include items not directly attributable to day-to-day operations.
EBITA	Earnings before interest, taxes and amortisation.	Together with EBITDA, EBITA provides a view of the profit generated by operating activities.
Adjusted EBITA^{*)}	Calculated as adjusted EBITDA, excl. IFRS 16 adjustments, less acquisition-related amortisation for the last 12 months at the reporting date for the companies included in the Group at the reporting date, as if they had been owned for the last 12 months.	Together with adjusted net sales and adjusted EBITDA, adjusted EBITA provides management and investors with a view of the size of the operations included in the Group at the reporting date.
EBITA excl. items affecting comparability^{*)}	Calculated as EBITA, excl. IFRS 16, adjusted for remeasurement of additional consideration, capital gains/losses on the sale of operations and properties, and other income considered to be non-recurring.	Used by management to monitor the underlying earnings growth for the Group.
EBITA excl. central costs and items affecting comparability^{*)}	Calculated as EBITA, excl. IFRS 16, adjusted for central costs, remeasurement of additional consideration, capital gains/losses on the sale of operations and properties, and other income and expenses considered to be non-recurring.	Used by management to monitor the underlying earnings growth for the operations in the Group.
Adjusted profit after tax¹⁾	Profit after tax, excluding significant impairment	Used by management to monitor the underlying earnings growth for the operations in the Group.
Organic EBITA growth^{*)}	Calculated as EBITA, excl. IFRS 16, excluding central costs and items affecting comparability for the period, adjusted for total acquired and divested EBITA and currency effects, compared with EBITA excluding central costs and items affecting comparability for the same period the previous year, as if the relevant business unit had been owned for the same length of time in the comparative period as the length of time it has been legally consolidated in the current period.	Used by management to monitor the underlying earnings growth for existing operations.
Adjusted earnings per ordinary share¹⁾	Profit attributable to holders of the Parent's ordinary shares, excluding significant impairment, divided by the number of shares outstanding	Used to illustrate the underlying earnings per share in the Group.

*) Updated compared with the 2018 annual report, mainly regarding the exclusion of IFRS 16 effects.

1) New or updated APM since 2018 annual report, which excludes significant impairment.

Non-IFRS APMs and key metrics	Description	Reason for use
Return on equity^{*)}	Net profit (including share attributable to non-controlling interests) divided by average equity (including share attributable to non-controlling interests).	Shows the return generated on the total capital invested in the Company by shareholders.
Return on adjusted equity¹⁾	Net profit excluding significant impairment (including share attributable to non-controlling interests) less preference share dividend divided by average equity for the last four quarters (including share attributable to non-controlling interests) less preference share capital.	Shows the underlying return generated on ordinary share capital invested in the Company by owners of ordinary shares.
Return on capital employed (ROCE excl. GW)^{*)}	EBITA, excl. IFRS 16, excluding items affecting comparability for the last 12 months divided by average capital employed, excl. IFRS 16, for the last 12 months.	Shows the return on capital employed generated by each business area and the Group without taking into consideration acquisition-related intangible assets with indefinite useful lives.
Return on capital employed including goodwill (ROCE incl. GW)	EBITA, excl. IFRS 16, excluding items affecting comparability for the last 12 months divided by average capital employed, excl. IFRS 16, including goodwill and other intangible assets with indefinite useful lives for the last 12 months.	Shows the return on capital employed generated by each business area and the Group.
Equity ratio	Equity (including share attributable to non-controlling interests) as a percentage of total assets.	The metric can be used to assess financial risk.
Cash conversion^{*)}	Calculated as operating cash flow for the last twelve months divided by EBITDA excl. IFRS 16.	Cash conversion is used by management to monitor how efficiently the Company is managing working capital and ongoing investments.
Operating cash flow^{*)}	Calculated as EBITDA, excl. IFRS 16, less the difference between investments in/divestments of property, plant & equipment and intangible assets, after adjustment for cash flow from changes in working capital, excl. IFRS 16.	Operating cash flow is used by management to monitor cash flow generated by operating activities.
Net debt/Adjusted EBITDA^{*)}	Net debt, excl. IFRS 16 adjustments, at the end of the period in relation to adjusted EBITDA for the period.	The metric can be used to assess financial risk.

*) Updated compared with the 2018 annual report, mainly regarding the exclusion of IFRS 16 effects.

1) New or updated APM since 2018 annual report, which excludes significant impairment.

Auditor's review report

To the board of directors of Volati AB (Publ), corporate identity number 556555-4317

Introduction

We have reviewed the interim report for Volati AB (Publ) as at September 30, 2019 and for the nine months period then ended. The Board of Directors and the Managing Director are responsible for the preparation and presentation of this interim report in accordance with IAS 34 and the Swedish Annual Accounts Act. Our responsibility is to express a conclusion on this interim report based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements, ISRE 2410 *Review of Interim Financial Statements Performed by the Independent Auditor of the Entity*. A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and other generally accepted auditing standards in Sweden. The procedures performed in a review do not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim report is not prepared, in all material respects, in accordance with IAS 34 and the Swedish Annual Accounts Act regarding the Group, and in accordance with the Swedish Annual Accounts Act regarding the Parent Company.

Stockholm, 24 October 2019
